

INVOPAK

Over 60 years involvement
in packaging containers

'Solvent Resistant' Plastic Containers

A range of containers where a fluorinated barrier has been applied during the moulding process giving considerably enhanced protection against aggressive products and product loss by permeation. Supplied in a variety of designs from 250ml to 25 litres with many having UN approval for hazardous goods.

Materials

Manufactured from high density polyethylene. Containers available as standard or fluorinated to provide a protective barrier to carry aggressive fluids.

Capacities

From 250 ml - 25 litre with most popular industry standard sizes being 1, 5, 10 and 25 litres.

External and Internal Finishes

A choice of natural and white fluorinated containers available.

Applications

Agro chemicals, industrial solvents, cleaners, detergents, lubricating oils, adhesive coatings, inks and many more.

Supply

Available in pack and pallet quantities.

Sales: 0870 606 4686
